

DEMOCRATS OLONS NOT CONSISTENT

Men Who Are Urging
Compromise Ones
Who Oppose It.

World's Washington Bureau.

WASHINGTON, Dec. 20.—That the democratic senators who are now urging a compromise upon the league of nations and its adoption this month are the same democrats who presented such an edict at the close of the special session of congress by voting their votes against it, is a charge made in a statement from Senator Wesley L. Jones of Washington. He says, in part:

"Democratic senators who voted against ratification of the peace treaty are doing a lot of talking now, about compromise. They are trying to throw a smoke screen around their vote. They say that 30 senators are for a league of nations. But the fact remains that only 49 senators voted for it. What of the other 23? They voted 'no' or the 49 voting for the adoption of the treaty, 34 were republicans and seven were democrats. Why did all of the other democrats vote against the treaty's adoption? Because they were told to by the president. Everyone in Washington knows that, and the country knows it too."

"Every reservation adopted by the senate protects American interests and American rights. No senator has ever charged any one of them to be injurious to the United States. They Americanize the league of nations for us. American interests were not protected in the treaty, and have not been protected in any way by our representatives in Paris. These reservations do with the treaty what the peace commissioners fail to do. These senators who now talk compromise but who voted 'no' must submit something concrete. They voted against purely American interests and defeated the league of nations."

BISHOP SHAHAN TALKS

Rector of Catholic University of America Addresses City Club.

The Right Rev. Thomas J. Shahan, D. D., rector of the Catholic University of America, Washington, D. C., was the principal speaker at the meeting of the city club at noon yesterday. The City Club was the topic of the afternoon, which was the topic of the speaker, who is in Tulsa as the guest of John H. Marshall Jr.

That Tulsa should apply the principles of art in the future building of the city was the urgent appeal of the speaker. He paid high tribute to the men who have developed Tulsa and Oklahoma, and predicted greater development within the next few years.

Judge Ralph Campbell, newly elected president of the City club, presided at the meeting. M. M. Poundstone, chairman of the membership committee, reported the names of 29 new members secured in the past week. Members voted to endorse the "Pay up week" campaign to be put on by the credit men's association in January, and authorized the secretary to write a letter of endorsement that the association might use in its publicity.

THIS isn't one of those fake free treatment offers you have seen so many times. We don't offer to give you something for nothing—but we do guarantee that you can try this wonderful treatment, entirely at our risk, and this guarantee is backed by your local druggist.

This makes the offer one which you can absolutely depend upon, because the druggist with whom you have been trading would not stand behind the guarantee if he did not know it to be an honest and legitimate one.

Hunt's Salve, formerly called Hunt's Cure, has been sold under absolute money back guarantee for more than thirty years. It is especially compounded for the treatment of Eczema, Itch, Ring Worm, Tetter, and other itching skin diseases.

Thousands of letters testify to its curative properties. M. Timmerlin, a reputable dry goods dealer in Durant, Oklahoma, says: "I suffered with Eczema for ten years, and spent \$1,000.00 for doctors' treatments, without result. One box of Hunt's Cure entirely cured me."

Don't fail to give Hunt's Salve a trial—price 75 cents, from your local druggist, or direct by mail if he does not handle it.

"The Mystery

OF THE

Yellow Room"

The Most Engrossing Mystery Picture of the Season

The Influence of Yellow

There are five principal colors—from among them yellow has always been chosen as the color of jealousy, insanity, and is known to have a marked effect upon crime. The average student of an insane asylum who may only be suffering from mental delusions if put in a yellow room would become violently insane. Colors are known to have certain "vibrations" and attract certain elements unto themselves like a magnet attracts particles of steel. The color yellow acts upon certain brains like a note from a violin or organ will set pieces of furniture to vibrating. Yellow was the color chosen by the unfortunate Chinese Empire for their flag—yellow also predominates in the dress and furniture of the Chinese.

Yellow in national emblems generally brings on unrest and misfortune. Belgium, Spain, Russia and numerous other countries in which these have occurred great national misfortunes, have the color yellow embodied in their flags.

A young lady, daughter of a French scientist, was recently attacked in a room of their French Chateau which was entirely decorated in yellow. The not ordinarily superstitious people were shocked by this crime which baffled their police and criminal experts. It was thought that the influence of yellow was entirely to blame for the crime.

Records of the Police in each city show that yellow has played a prominent part in crime.

What do you know of this color and its influence on the lives of your acquaintances and the surroundings in which you live?
